

## Editorial Preface

We would like to present, with great pleasure, the inaugural volume of a new scholarly journal, Journal of Advanced Research in Applied Sciences and Engineering Technology. This journal is a peer reviewed journal offers an open forum and research reports in the field of applied sciences and engineering applications to promote the exchange of research ideas, knowledge and experiences, implementations and results.

Journal of Advanced Research in Applied Sciences and Engineering Technology focuses on original high-quality research and so to provide a platform for researchers, engineers, academicians as well as industrial professionals from all over the world to present their summary of current research in the gamut of applied science. The mission of this journal is to publish original contributions in Applied Sciences and Engineering Technology in order to stimulate further research and knowledge amongst its scholars.

Scope of the journal includes: applied sciences and engineering technology. The Journals reports principally the achievements spanning the interdisciplinary field of applied researches including biology, chemistry, physics, environmental, geology, engineering, computer science, social sciences, natural and technological sciences, medicine, architecture and more.

It is our hope that this fine collection of research reports will be a valuable resource for Journal of Advanced Research in Applied Sciences and Engineering Technology readers and therefore sincerely invites the submission of technical manuscripts on all the areas of applied sciences and engineering technology fields.
